getty102@gmail.com

ENGINEERING & TECHNICAL SKILLS:

- Onshape, Arena, Solidworks/PDM, Autodesk Inventor/Vault Pro/Fusion 360, Python, AutoCad/Electrical, Matlab, Simulink, Microsoft Suite & Visio, Labview, Bluebeam
- Machine Design, FEA (Solidworks Simulation), FMEA, CFD (Autodesk CFD), ERP, PLM, Thermal Analysis, DAQ, Raspberry Pi, Arduino, DFM/DFA/DFX

WORK EXPERIENCE:

Manpower Engineering (Quantinuum) Apr. 2026 - present
Mechanical Engineer Contractor

- Developed, maintained and released 3D CAD models in compliance with GD&T standards.

Outrider Jan. 2022 - Dec. 2025
Mechanical Engineer

- Spearheaded the design of 20+ prototype and production assemblies for autonomous vehicles, including ruggedized IP-rated enclosures and thermal management sub-systems.
- Orchestrated cross-functional design reviews with electrical, manufacturing and supply chain teams to ensure cost-effective fabrication and seamless system integration.
- Authored comprehensive engineering technical drawings applying expert-level GD&T (ASME-Y14.5, 2009) to ensure precision and manufacturing consistency.
- Managed the full lifecycle of Engineering Orders (EO's) and revisions, ensuring technical documentation accuracy from concept to release.

Cooperman Technologies Jan. 2019 - Apr. 2021
Design Engineer

- Designed, developed, assembled high pressure CO2 process machines for textile cleaning/botanical extraction.
- Architected and maintained Autodesk Vault Pro Product Data Management (PDM) package, establishing Product Lifecycle Management (PLM) procedures that improved data integrity.
- Leveraged advanced CAD techniques for sheet metal, weldment and complex surface modeling.
- Cultivated partnerships with 3+ manufacturing partners to implement DFM/DFA principles, significantly reducing fabrication lead times and cost.

CML Security Oct. 2018 - Jan. 2019
Project Engineer

- Directed project documentation, including RFI's, change orders and delivery logs to maintain project transparency and schedule adherence.
- Performed all duties associated with project document tracking, project management and distribution including: RFI's, transmittal and delivery log, change estimates and change orders.

Puzzah Escape Rooms May 2017 - Oct. 2018
CAD Technician/CNC Operator

- Developed durable, high-use puzzles using 3D modeling with focus on safety, reliability and user experience by designing vector toolpath files and operating 4'x8' Laguna CNC

EDUCATION:

Colorado School of Mines, Golden, CO
Bachelor of Science in Mechanical Engineering (BSME) Dec. 2017

Certifications:

- Engineer In Training (EIT) May 2018
